DETAILED ACTION

The instant application contains pending claims 1-37.

The instant applicant was filed with 23 sheets of drawings wherein drawing sheets 20-23 are photographs drawings.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10, 17, 18, 20 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The second occurrence of diesel fuel in line 2 of claim 10 should be deleted for clarity.

Claim 20 appears to duplicate claim 18 and does not provide a further limitation of claim 8.

Claim 21 appears to duplicate claim 17 and does not provide a further limitation of claim 8.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1714

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-37 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Jordan 5,826,369.

Jordan teaches methods, additive and fuel composition comprising beta-carotene, chlorophyll and jojoba oil and other conventional additives that anticipates the instant claims, note abstract, example 1 and Tables 1-13. If applicant deem the claims not to be anticipated then in the alternative the claims are rendered obvious by the teaching of Jordan that overlaps and encompasses the relative proportion of the additive components, column 3, lines 1-59, column 4, lines 5-40, column 5, lines 25-60. The claims if not anticipated are rendered obvious by the teachings of Jordan.

The prior art cited and not applied further teaches fuel and additives of the same nature as claimed by applicants.
